LEVEE CLERK - It will be seen by reference to his card, in another column, that Mr Jons H. HARRIS is again the field, a candidate for business. as Levee Clerk. He is well known to our citizens, who have found him heretofore active, industrious. prompt. A bu-y season to him, says the PATR or.

Amat urs' Concert.

Our citizens doubtless remember the concerts which have been given by a number of lady and and gentlemen Amateurs in this city, during the rious public and private chariti s of Nashville. Jas. Johnson at Dover. Passed V. K. Stevenson These concerts have been height erjoyments, ex at Palmyra. River falling, 53 feet on shoals. hibiting, as nothing else could, not only the charity. of, but also the great wealth of musical talent which It in this city. We have no hesitation in saving that these concerts would have been creditable to CANDIDATES to any city in the United States, and we do not exaggerate in stating that the performers by their exermons have added at least one thousand dollars to the sums raised by the indefatigable managers of March election the off rent Asylums.

We are pleased to learn and to announce that th re will be a concert given by the Amateurs next week, for the tweefit of an organization-a chi-f duty of which is Charity, and in which the performers have direct interest as distributors; and we candidate for Sheriff of Davidson county, at the next Starch trust that this appeal, like the others, will be answered in the spirit in which it is made.

CHIME,-Our old friend, Col. Saymour, of the New Orlean- Commercial Bulletin, (-avs the Memphis Eagle and Enquirer) is a plain spoken man. He don't paliate nor gloss over crime in his city. Hear his comments under date of November seventh:

MURDERS -We trentioned a day or two ago that there were two murders committed here it week. Two more victims must be added to the bloody catalogue of crimes when disgraced the city last week, making four in one the enoung March election. week, and another on the Monday following! Names, Eagan, McLaughlin, Lumb, Coffee, candidate for the March elegion.

In Memphis there is grambling at the fact that one man is killed each week. But this is realy nought to what is done in New Orleans: for there, we learn, the Summer past they killed one Daley.

The Pressure in Europe. Wilmer & Smith's Liverpool European Times, of

the 31st, in a financial articles, says: "The effect of the news from America, received this week, upon the Euglish money market has been very reasoring, although the storm has not p seed over without inflicting disaster. The Borouch Back of Liverpool has given vay under the pressure, and must wind up its officers. The capital represents a million of money, but its suspension has created less surprise than regret. The Western Bar & of | Scotland, with upwards of 100 branches, and this head office at Glasgow, has been nearly in as bad a plight, owing principally to the position of affairs in America, but the new turn which things lave spirit of the Times, Harper's Journal of Civilization, 1881 taken has induced aid to be forth-coming. The de- received by posits in this bank repre ent -ix millions of money. All apprehensions, therefore, of a drain of gold for the United States have disappeared; because, in the present state of exchanges, speculative ship ments of specie from En land to America would end in loss; and thus has ended, for a time, at least, the greatest pressure which our money market has sustained during the last ten years, The price of most articles of produce has been effected by the state of uncertainty during the interval, and some little time must clapse before the equilibrium can be perfectly restored. The demand for silver to send to the East is still considerable, and imports of silver from the confirent, to be replaced by gold, have taken place, but this drain is small and hardly worthy of notice as compared with the great American presentlment.
